Editar Configuración Ayuda  
man(1)  
  
man - format and display the on-line manual pages  
manpath - determine user's search path for man pages  
  
man [-acdfFhkKtWU] [--path] [-m system] [-p string] [-C  
config file] [-H pathlist] [-P pager] [-S section list]  
[section] name ...  
  
DESCRIPTION  
man formats and displays the on-line manual pages. If you  
specify section, man only looks in that section of the  
manual. name is normally the name of the manual page,  
which is typically the name of a command, function, or  
file. However, if name contains a slash (/) then man  
interprets it as a file specification, so that you can do  
man ./foo.5 or even man /cd/foo/bar.1.gz.  
  
See below for a description of where man looks for the  
manual page files.

[About Us](#)

© 1996 The LEGO Group ® LEGO, LEGOLAND, LEGO SYSTEM, FreeStyle, DACTA and DUPLO are trademarks of the LEGO Group

Hi!

If you are one of the millions of children who love LEGO products and want to know all about them and about the company that makes them - you have come to the right place.

On this site we will gather all the fun and information that we think you may be looking for.

In the LEGO Group, we always focus on the child and his or her needs and interests. You are simply our V.I.P. - our most important person. Therefore, we have made this site primarily for you.

However, we also welcome parents, relatives, LEGO enthusiasts and everybody else who want to know something about the LEGO Group and our products - you, too, may find bits and pieces of useful information as you go along.

We will continue developing this site, just as we will, of course, update and add to it, whenever we have new, relevant information to share with you.
